

## ReelMaster Comparison

1400, 1650 Open Series

### SAMSON ReelMaster Hose Reels - The Advantages

- ★ **Dual Side and Outlet Arms**  
support spool, shaft, hub on both sides vs. single arm style Reels.  
The **SAMSON** Advantage: Less vibration, less stress, longer life. Increased durability and reliability.
  
- ★ **Forged and Hardened Shaft and Explosion Proof Swivel.**  
The **SAMSON** Advantage: Extended leak-proof seal life.
  
- ★ **Fully Ported Hub - Full Flow.**  
The **SAMSON** Advantage: No flow restriction. Max. Fluid delivery.
  
- ★ **Permanently lubricated bearings.**  
The **SAMSON** Advantage: Positive reel recoil every time - prolongs reel life.
  
- ★ **Heavy Duty Latch Mechanism.**  
The **SAMSON** Advantage: Non-spraking, positive, audible, hose position lock.
  
- ★ **Compact Narrow Design**  
The **SAMSON** Advantage: Engineered to save installation space.
  
- ★ **Spring Tension Adjustment from outside of reel (No need to manually wrap)**
  
- ★ **DOUBLE WARRANTY**  
The **SAMSON** Advantage: 2 years vs. 1 year  
Parts and labor vs. single arm mfg. parts only.
  
- ★ **Pricing: See SAMSON's competitive pricing data sheet.**  
The **SAMSON** Advantage: Savings up to 20%.

\* Single arm manufacturers have no prepaid freight program. Distributor pays all freight. Warranty is on parts only.
