

# NEX·U·<sup>®</sup> Compact

NEX·U·<sup>®</sup> also offers solutions to smaller workshops where web based software is not needed. NEX·U·<sup>®</sup> COMPACT is a simple system based in a special U·dat keypad that is able to control a maximum of 8 dispensing points.

**The Keypad includes a 7" color screen and a simplified version of the U-track software. The software included provides workshops with:**

- Full control of bulk stored fluid usage.
- Inventory control using declining balance method. NEX·U·<sup>®</sup> COMPACT will give a warning signal once a certain inventory is reached, and restricts access to those outlets that have run out of inventory.
- Ability to generate full reports in CSV format that can provide useful management information.

## ORDERING INFORMATION

Part No.	Description
383 001	NEX·U· <sup>®</sup> COMPACT 75. With a 75W transformer for opening up to 2 solenoid valves.
383 013	NEX·U· <sup>®</sup> COMPACT 320. With a 320W transformer for opening up to 8 solenoid valves.

NEX·U·<sup>®</sup> COMPACT can work with any NEX·U·<sup>®</sup> fluid meter: U·valve; U·meter or U·meter<sup>+</sup> with solenoid valve and filter. A U·vision hand held display can be connected to each U·valve or U·meter<sup>+</sup>.

NEX·U·<sup>®</sup> COMPACT has 64 GB storage capacity that provides virtually an unlimited capacity for storing transactions.

NEX·U·<sup>®</sup> COMPACT does not support working within a network or PC connection.

NEX·U·<sup>®</sup> COMPACT keypad **A** can control 8 dispensing points (model with 320W transformer) or 2 dispense point (model with 75W transformer). Each dispensing point **B** can include a U·valve, a U·meter or U·meter<sup>+</sup> with solenoid valve combination. A U·vision hand held display **C** can be connected to each fluid outlet using Blue tooth<sup>®</sup> communications. It is possible to include a Blue tooth printer to provide a ticket for the transactions.

*Configuration has to be done through a PC.*
